# WHEELCHAIR CUSHIONS

## WHAT IS TEMPUR®?

The TEMPUR Material is a visco-elastic, temperature sensitive open cell material which has unique pressure relieving qualities. Unlike ordinary polyurethane which features irregular cell shapes that simply compress under weight and degenerate over a short period of time, the TEMPUR Pressure Relieving Material is composed of billions of visco-elastic spherical shaped, open cells.

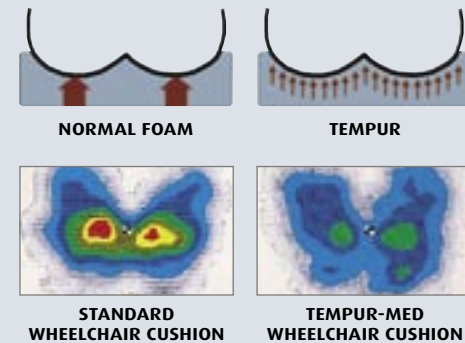

The cells respond to body temperature and weight then shift and reorganise their position to mould to the exact contours of the patient's body. The TEMPUR Pressure Relieving Material becomes softer in warmer areas and remains firmer in cooler areas, where less body contact is being made.

TEMPUR-MED wheelchair cushions combine pressure care with a high degree of comfort. They mould to the body to accommodate postural problems, are easy to clean, durable and require no maintenance.

### THE TEMPUR MATERIAL

- Moulds to the individual
- Temperature sensitive
- Responds to and supports the users body weight

The TEMPUR-MED cushion helps to establish 24-hours pressure area care by providing maximum support and stability to patients sitting out of bed, with a multi-stretch, vapour-permeable cover that reduces friction.

The light blue and blue show areas of low pressure. Yellow, orange and red show areas of where the body is subject to high, uncomfortable pressure.

TEMPUR has a density of 85-110 kg/m³. The open cell structure allows air to circulate.

### REGULATIONS

All TEMPUR-MED Products with a PU-Cover comply to the following standards:  
Class 1 Medical Devices Directive 93/42/EEC.  
British Standard safety regulations, BS EN 597, parts 1 & 2, BS6807 and BS 7177.

## WHEELCHAIR CUSHIONS RANGE

### WHEELCHAIR CUSHION

**Standard sizes:**  
40 x 40 x 5 cm  
43 x 43 x 5 cm  
45 x 40 x 5 cm

### WHEELCHAIR CUSHION

**Standard sizes:**  
40 x 40 x 7,5 cm  
43 x 43 x 7,5 cm  
45 x 40 x 7,5 cm

### WHEELCHAIR CUSHION, CURVED

**Standard sizes:**  
40 x 40 x 9/5 cm  
43 x 43 x 9/5 cm  
45 x 40 x 9/5 cm

### PU-COVER

All TEMPUR-MED products are covered with a water-proof and air permeable PU-cover. The PU-cover is welded to avoid leakage. It is easy to remove, can be machine washed (95° C) and is easy to clean, disinfect and sterilise using cleaning agents commonly used in hospitals.

### ADVANTAGES OF THE PU-COVER:

- Stretchable
- Easy maintenance
- Easy cleaning
- High level of hygiene
- Quality assured
- Risk profile – up to high risk
- Washable in 95° C
- Vapour permeable
- Antibacterial treated

## TEMPUR-MED Wheelchair Cushions

- A choice of 3 cushions. 5 cm, 7,5 cm and curved
- Available in customised sizes and thicknesses
- For wheelchairs, static chairs at home or in the ward to ensure continuance of care for patients
- Superior performance and comfort for high-risk users
- Quality outcomes for pressure ulcer prevention and treatment
- Available for paediatric and heavy duty users
- Maintenance free and easy to clean
- 3 year guarantee
- All cushions come in a machine washable, waterproof vapour permeable two-way stretch cover
- Anti fungicidal
- Anti bacterial
- Fire compliant
- CE marked
- Welded seams
- Risk profile – Up to very high risk
- High Density 110kg/m³ TEMPUR Material
- Anti microbial impregnated
- Colour: Navy blue

Providing continuous care

## FEATURES

- EASY TO CLEAN
- FIRE RESISTANT
- MAINTENANCE FREE
- BALANCED STABLE SITTING ENVIRONMENT
- APPLICATIONS FOR USE
- GUARANTEE
- MEDICAL APPLICATION
- NON-SLIP BASE
- PATIENT WEIGHT GUIDELINES
- EASY TO USE
- WELDED COVERS

## BENEFITS

- REMOVABLE, WASHABLE COVER
- COMPLIANT & SAFE FOR THE USER
- COST EFFECTIVE
- PROLONGED SITTING COMFORT
- WHEELCHAIRS, ARMCHAIRS
- 3 YEARS (AGAINST MANUFACTURERS DEFECTS)
- FOR PRESSURE ULCER PREVENTION
- TO PREVENT CUSHION SLIP
- CAN ACCOMMODATE ALL PATIENT WEIGHTS
- TRANSFERABLE
- PREVENTS LEAKAGE

THE ONLY MATTRESS AND  
PILLOW RECOGNIZED BY  
NASA AND CERTIFIED BY  
THE SPACE FOUNDATION ♦

# TEMPUR IN BRIEF

Tempur-Pedic International, Inc. is an international company that specialises in developing, producing and selling products manufactured from the unique TEMPUR Material. TEMPUR is a high-tech, visco-elastic material, originally developed by NASA for the American space programme in the 1970s. TEMPUR acquired the rights to manufacture the material at the end of the 1980s, and at the start of the 1990s our production engineers successfully developed a high-quality process for the manufacturing of the TEMPUR Material. This paved the way for transferring NASA's technology to use in private homes and in the health sector throughout the world.

TEMPUR Products for the health sector are launched under the international name: TEMPUR-MED.
